SUPPLEMENT TO REPORT NO. [ ] 25X1

THIS IS UNEVALUATED INFORMATION

25X1

1. A large concrete bunker was built during the past two years in a hill in the woods near Falkenhagen (N 53/V 44). It has a capacity of about 3,000 soldiers. The rooms are comfortably furnished and a special power plant supplies current for light and heating. In addition to the quarters for soldiers, there is space to house a freight train. Railroad tracks lead into the bunker. The concrete walls are 6 meters thick. There is good circulation of air throughout the bunker.

2. The bunker was first occupied by Soviet recruits in June 1950. A German detail of about 30 workers, who are to complete the installation, were also quartered in the bunker. The entire area is fenced-off and guarded by Soviet sentries. Messhalls, kitchens and motion picture theater are in the bunker.*

25X1   * [ ] Comment: Previous information supplied [ ] in May 1950 reported the bunker installation near Falkenhagen and the arrival of AAA guns and ammunition. [ ] Occupation by recruits seem questionable.   25X1   25X1
